How GrammarMind Works

Your ideas. Our intelligence.

Input Your Writing

Paste or write directly into the editor. Our system supports casual notes to formal documents.

Get AI Suggestions

GrammarMind detects errors and style issues in real-time using contextual AI logic.

Accept or Customize

Easily review each AI suggestion. Accept with one click, make edits, or ignore entirely — you're always in control.

Why GrammarMind?

Built for writers, students, and professionals who demand more from AI.

Accurate Beyond Grammar

GrammarMind refines clarity, tone, and flow — not just spelling.

Adaptable to Any Style

Formal, casual, or resume tone — one click away.

Privacy-First AI

We never store your writing or use it for training.

AI-Powered Writing Experience

Unleash your creativity with intelligent, real-time writing assistance tailored for clarity, tone, and precision.

Real-Time AI Editor

GrammarMind instantly analyzes your writing and provides live, in-line suggestions. Edits appear as subtle blue highlights while you type.

Multi-Language Support

Write fluently in over 20 languages. GrammarMind intelligently adapts grammar rules, tone, and context to each supported language.

Tone Detection

Easily identify the tone of your writing — Formal, Casual, or Neutral — and receive tailored suggestions to match your intent.

1-Click Rewrites

Easily identify the tone of your writing — Formal, Casual, or Neutral — and receive tailored suggestions to match your intent.

On-Device Privacy

Easily identify the tone of your writing — Formal, Casual, or Neutral — and receive tailored suggestions to match your intent.
